STANDARDS

Product 448-010-3-10; Nexans specification

DESIGN

- Miniaturized construction down to AWG44 conductor size
- Easy identification of coax units by color code
- Spiral shield using microwires down to AWG56
- Bundles with identification thread
- Bio-compatible and sterilizable materials

Cable properties

- Very flexible
- Good performance for dynamic application with flexion and torsion
- Cosmetic adaptability
- High resistance against electromagnetic disturbances
- High transmission and electrical performances

Production

Reliable quality process with 100% control in line and off line.

ISO13485 certification

For more information, please contact-us

RoHS compliant
Yes

CHARACTERISTICS

Usage characteristics

RoHS compliant

Yes
