Wired to electrify industry

MOTIONLINE[®]

high performance cables
to power your equipment

Motionline® high performance automation cables to support your success, worldwide

Managing today and tomorrow's vast data growth with experience.

Thanks to new trends and applications driven by Industry 4.0, the automation market is growing faster. Sensors, databus, hybrid and power cables will be increasingly installed in smart factories.

Relying on decades of expertise and a broad range of capabilities, Lynxco can support customers in this new challenge. We provide high-performance cables as specifically designed and customized solutions based on our own R&D and technical support.

One & Unique

Brand name for the automation cables range

Conform to

major safety standards such as UL, CSA, CCC, IEC, VDE

Design for

Dynamic or extremely dynamic applications

Resistant to

oils, coolants and notch, flame retardant, resistant to hydrolysis and microbes

Servo motor

Hybrid

Power

Measuring systems

Control

ASI

Databus

Robot

Sensor

Unrivalled solutions that set industry standards

4 factories:
Germany, Italy, USA, China

1 MOTIONLINE®
application center

1 independant laboratory
test (Fire & Chemical)

Lynxco's MOTIONLINE® brand cables meet key OEM standards and applications as well as major international standards. We can also provide cables specifically designed for your needs.

- Our R&D teams develops optimized copper conductors, jacket materials and cable design.
- In our Motion Application Center (MAC), we test our cables, reproducing real-world applications (chain, robots and reverse bending) to provide customers with reliable and high-quality solutions. In combination with our design and customization capabilities, that means a short time to market.
- Reliability, durability and quality are guaranteed. Lynxco manages the complete life cycles of cables - from raw materials to design, manufacture, testing delivery and support. To meet today's flexible production line requirements, we offer cross-industry compatibility, international standards compliance and fast delivery.

Wired to electrify industry

Industry is everywhere. Making our daily lives easier. Fostering progress. Moving the world. Industry plays a key role in shaping a better future.

We have been serving industry for generations. Today, we are committed to making it more efficient, more reliable and more sustainable.

Our cables are essential to the machines developed by global industry champions. They serve as the spinal cord of mission-critical infrastructures, assets and applications. Our clients rely on our advanced technologies and our industrial excellence to bring their machines to life.

In the century since we were founded, we have risen to a leading position in our markets.

Now, as a standalone company, we embark on a new journey with even greater agility, more focus and stronger customer intimacy.

For industry leaders, we are ever-evolving partners in an ever-changing world.

Together, we build connections beyond cables.

From energy transition to mobility and automation, our teams are tackling the greatest challenges of our times.

Our name is Lynxéo. We have local roots and global reach.

Connected to our customers, committed to excellence and progress, we are wired.

Wired to electrify the industries that move the world.
